Re: **LPSCO Palm Valley Water Reclamation Facility, Docket No. ~~SW-01428A-05-0022~~; SW-01428A-06-0444.**

Dear Mr. Dodds:

I am writing today to follow up on odor complaints from residents and businesses in the vicinity of the LPSCO Palm Valley Water Reclamation Facility at end of April.

Subsequent to these complaints being raised, you informed Commission Staff that operational issues with the Centrifuge were contributing to odors being released from the plant. In addition, you stated that Phase 2 of the odor control project was on schedule.

I have several questions that I would like answered by the Company on this issue.

First, after more detailed review, has the Company determined the root cause of the odor problems in April?

Second, what steps has the Company taken to rectify the situation?

Third, what is the current schedule for completion of Phase 2? Additionally, what is the status of the feasibility studies for additional odor abatement and control measures that you cited in your April 30, 2007 email to Staff?

Fourth, what are the results from the air quality monitoring the Company is conducting along the perimeter of the plant during the time of the odor releases?

Finally, when will Algonquin be hosting another community meeting designed to update community members on these matters?

Your timely response to my inquiry is appreciated.

Mr. Bob Dodds
